Career Objective

As a recent software engineering graduate, I'm passionate about developing scalable web applications and working across the full stack. I'm seeking a challenging career opportunity with a company that values excellence and commitment where I can apply my theoretical knowledge in practice by utilizing my skills.

Projects

HomiFy – Home rental platform

Technology: ReactJS, Redux, RTK query, NodeJS, MongoDB, ExpressJS, JavaScript(ES6),HTML, CSS, tailwindcss, etc.

- This is a home rental system.
- People can find home which they need.
- Home owner can post for house rent.
- Home owner can make monthly bill invoice & store all information about renter .
- An authenticated user can live chat with home owner & also see their bill status.

Education

Jan 2019 – Present

BSC in Software Engineering

Daffodil International University

- CGPA 3.59 out of 4.00 (Current Average)

May 2016 – Mar 2018

Higher Secondary Certificate

Safiuddin Sarker Academy And College

- Science Studies

Jan 2005 – Feb 2016

Higher Secondary Certificate

BARI High School

- Science Studies

Certifications

Redux: Think in a Redux way April 2023

Modules included: Vanilla Redux, Redux Toolkit & RTK Query with React-Redux integration

Declaration

I do hereby declare that the above statements mentioned are true and correct to the best of knowledge and belief.
